

Fonte di Monte

Nuova
SAMiCer

The **Fonte Ventasso®** Natural Mineral **Water** emerges from the earth microbiologically pure over **3,300 feet** above sea level from sources and wells located in the heart of a vast and beautiful mountainous area in the heart of the Apennines of Reggio Emilia, inside an uncontaminated park known as the **Tuscan-Emilian Apennines National Park**. The low mineral content (fixed residue at **180°C** equal to **171 mg/L**) and the absence of nitrites make **Fonte Ventasso®** water one of the **lightest low-sodium mineral waters** on the market today, ideal as a digestive aid and for the elimination of uric acid. Its saline composition and **7.7 pH** factor also make it especially pleasant to drink.

STILL

PHYSICOCHEMICAL ANALYSIS

Water temperature at the source (°C)	8.4
pH factor at the source	7.7
Specific electrical conductivity at 20°C (µS/cm)	260
Fixed residue at 180°C (mg/L)	171
Total hardness (°F)	12.7
Free carbon dioxide at the source (mg/L)	7.0

Typical values ions mg/L

Calcium	43.9
Magnesium	4.4
Sodium	10.7
Potassium	0.2
Nitrate	<1

NATURAL MINERAL WATER

Its peculiar saline composition and 7.7 pH factor give it an especially **pleasant and well-balanced flavour.**

The **Fonte Ventasso** natural water with its low mineral content may have diuretic effects and facilitate urinary elimination of uric acid.

Tuscan-Emilian Apennines **National Park** Cervarezza Terme (Reggio Emilia - Italy)

Bottled by
Nuova S.A.MI.CER. S.p.A.
Società Acque Minerali Cervarezza Terme
Reggio Emilia - Italy

MICROBIOLOGICALLY PURE

Authorization by the Italian Ministry of Health n. 1913 of 30/12/1978
Authorization by the Emilia Romagna Region n.3569 of 12/07/1989

50cl / Still

150cl / Still
