**Santa Lucia mineral water** comes from a protected area rich in vegetation in the heart of the northeastern slopes of the **Appennines** in the province of **Reggio Emilia** at 3000ft. above the sea level; there are two mineral water springs - **pure, fresh, purifying** and **light**, with just the right **mineral** content - whose waters have been bottled and sold since **1935**. Walking through the **uncontaminated nature**, accompanied by the song of birds, the sounds of animals, and the music of the wind, you can sense the gurgling of the springs beneath your feet of the pure, cool water that gush forth from **Monte Ventasso** or from the small fountains along the trails in the **Parco Nazionale dell'Alto Appennino Tosco Emiliano**.

## NATURAL

## NUTRITION FACTS

Serving size: 8 fl. oz. (240 ml)  
Servings per container: about 2

## Amount per serving

Calories	0
	% daily value*
Total Fat 0g	0%
Sodium 5mg	0%
Total Carbohydrate 0g	0%
Protein 0g	0%

\*Percent daily values are based on a 2,000 calorie diet

## NATURAL MINERAL WATER

**Spring water**, with its 12°f hardness value, is ideal for low sodium diets. It is particularly recommended for those who suffer from kidney problems caused by an excess of calcium and magnesium in the body.

Bottled and imported directly from the source at **3000** ft. above sea level in the Apennines of Northern Italy.

**Parco Nazionale** dell' Appennino Tosco Emiliano  
Cervarezza Terme (Re)

Bottled by  
**Nuova S.A.MI.CER.** S.p.A.  
Società Acque Minerali Cervarezza Terme  
(Reggio Emilia)

## PURE WATER

Bacteriological analysis conducted by the Italian Ministry of Health.

16.9 FL. oz. (500 ml) / Natural

50.7 FL. oz. (1500 ml) / Natural
